

Welcome to this PSA Young People's Politics specialist group event!

The PSA Young People's Politics (YPP) specialist group (SG) addresses various questions within contemporary and historical contexts related to young people's political participation, such as:

- (1) What does 'politics' and political participation mean to young people?
- (2) How and why do young people choose to participate (or not) in politics and democracy?
- (3) How can young people be encouraged to participate more widely (and deeply) in various forms of civic and political engagement, including electoral and non-electoral forms of political participation?
- (4) How is the landscape of young people's citizenship and political participation evolving?
- (5) Why is young people's political participation important?

Members of the YPP specialist group engage with key issues, such as citizenship, citizenship education, political socialisation, Votes at 16, electoral participation, political generations, non-electoral participation, Do-It-Ourselves politics, protest, generational replacement, intergenerational inequalities, precarity and politics, engagement, and representation.

Want to know more and/or join the PSA Young People's Politics specialist group?
